What is this? R4BIA Do you know what this stands for?

This is the new Muslim Brotherhood
Symbol for a Global Caliphate

ONE UMMAH

It started in Egypt and has now
Grown Into a Worldwide Symbol

Significance of the Colors:

Yellow-is a reference to the golden
dome of Qubbatus Sakhra Mosque in
Jerusalem

Black-is to signify the black cloth that
covers the Kabba in Mecca

BACKGROUND

Rabia means fourth in the Arabic language. Rabia was a servant of Allah. She was the fourth child in her family.

The second reason for this symbol is the fact that the Muslim Brotherhood leader and short term president of Egypt, Mohammed Morsi was the fourth president of Egypt after Gamal Abdel Nassar, Anwar Sadat and Hosni Mubarak. The symbol was designed to remind people of this Muslim Brotherhood leader.

Following the ouster of Mohammed Morsi, the Rabia sign began spreading across the Muslim world and soon became the symbol of the global Muslim community.

The website goes on to say: those who gathered in Tahrir Square to protest Morsi and Sharia law implementation prefer the V sign made with the two fingers. We cannot be the same as those people. We use and spread the Rabia sign to distinguish ourselves from them.

ISLAM IN A NUTSHELL

The doctrine of Islam is made up of the Quran and the Sunnah.

The Sunnah is the biography and the traditions of Mohammed.

The two parts of Islam are religion and politics (Shariah).

The two cannot be separated.

In the US we separate religion and politics.

Islam puts all people into two categories: believers and non-believers.

Unbelievers are all non-Muslim people, also called Kafirs or Infidels. Kafirs have no rights in Islam.

Only 14% of Islam is the Quran, 86% is Sunnah (Mohammed).

Religion is the smallest part of Islam.

Muslims are to pattern their life after Mohammed.

IF you know Mohammed, you know Islam.
