

followers. This process is called “abrogation” in Surah 2:106. For example, of the 44 times “peace” is used in the Quran 75% of them were in the Meccan surahs. On the other hand, of the 56 times “fighting” is used in the Quran, 93% of them were in the Medinan surahs. One of the last surahs ‘handed down’ to Muhammad was Surah 9 – Repentance – which can only be characterized as belligerent. The Quran as well as Muslims themselves obscure the sequence of the Quran.

#### **9. The Quran cannot be made “moderate” --**

The Quran claims to be handed down from an imperishable tablet in Heaven per Surah 85:22. The Quran claims in Surah 6:115 that Allah’s words cannot be changed. This makes it impossible to modify the harsh commands of the Quran, which include chopping off hands of thieves (Surah 5:38), whipping adulterers with 100 lashes (Surah 24:2), wife beating (Surah 4:34), child rape (implied by Surah 65:4), and the obligation of Muslims to fight (Surah 2:216). Reminding people of this big problem is upsetting to Muslims because such commands are patently evil and there is no remedy to change them.

#### **10. “Islamophobia” is not a psychological ailment –**

Today, anyone who criticizes the ideology of Islam is called a racist, a bigot, or an Islamophobe. These derogatory terms are used to intimidate, to denigrate, and to restrict freedom of speech. Islam is not a race, and Muslims are comprised of all of the races on the globe. The neologism “Islamophobia” was propagated by the Muslim Brotherhood-affiliated International Institute of Islamic Thought in Herndon, Virginia, beginning in 1990. It was first used in print in America that year in an article in *Insight on the News*. The term implies an *irrational* fear of Islam, but it is applied to people who have very rational and objective evidence that Islam is a violent and intolerant ideology.

#### **11. Muslims in America are being increasingly radicalized by the Islamists (Political Muslims)**

-- In the recent presidential election in Egypt, over 75 percent of Egyptian immigrants, including those in the U.S., voted for the Muslim Brotherhood

candidate Mohamed Morsi. (Source: <http://frontpagemag.com/2012/06/21/over-75-of-egyptian-americans-voted-for-islamist/>) Eighty-two percent of U.S. mosques distribute literature that promotes violence against non-Muslims and apostates. The United States is becoming a significant source of jihad volunteers for the new caliphate called ISIS or the Islamic State. The mass murder of 5 military personnel in Chattanooga, TN, is exactly what ISIS has been calling for in their internet postings. <http://www.nydailynews.com/news/national/isis-hackers-call-jihad-u-s-military-article-1.2157749>

## What is Islam?

Islam is defined by the holy texts of its religion - not by the beliefs, actions or virtues of a Muslim.

We love it when the professional Muslim street preachers with their long beards and white robes come to the Promenade to proselytize non-Muslims. They look just like many in the roster of the FBI's most wanted global terrorists and the ISIS terrorists they feign to oppose.

All these Muslim street preachers can offer you is a free copy of the Quran. Take a copy and use it to look up the citations listed below, and then you will know the truth about Islam. It is NOT a religion of peace.

**1. Islam means Submission, not Peace.** While the Western view of peace is an absence of conflict, the Islamic view is submission. Surah 3:83 says, "Are they seeking a religion other than Allah's, when every soul in the heavens and the earth has submitted to Him, willingly or by compulsion?"

**2. Islam is both religious and political.** There is no separation of religion and government, per Surahs 4:59, 5:50, 7:54, and 12:40. The "Religion" part of Islam is often used as a cover for the "Political" part. Most Americans have no problem with the "Religion" part of Islam (which includes prayer, fasting and giving to charity), but are opposed to the "Political" part. The "political" part includes a system of laws believed to be from Allah and Muhammad, i.e., Sharia Law, per Surah 4:59, inferior status of non-Muslims (per Surah 9:29) and "fighting in the way of Allah" per Surahs 4:74, 9:111, and 61:4).

### 3. Sharia Law contradicts the U.S.

**Constitution, particularly the Bill of Rights –** The U.S. Constitution is based on inalienable individual *rights* which the government is sworn to protect. Sharia Law is based on community *obligations* imposed by Allah which the government enforces. For an article-by-article comparison of the U.S. Constitution with Sharia Law,

see: <http://www.annaqed.com/en/content/show.aspx?pod=1&aid=16242>

**4. Islam Permits Muslims to Lie to Protect Islam.** Islamic Sharia Law provides, "When it is possible to achieve an aim by lying but not by telling the truth, it is *permissible* to lie if attaining the goal is permissible, and lying is *obligatory* if the goal is obligatory." (*Reliance of the Traveler*, Para r8.2) Examples include lying to protect Islam or a Muslim. This is also confirmed in Surah 2:225 where Muslims are not held accountable for their oaths when goal of Islamic deceit is in their hearts.

**5. Devout Muslims revile Jews and Christians 17 times a day** – The first surah of the Quran is called Al-Fatiha or the Opening. It is prayed by devout Muslims 17 times a day in their required prayers. The prayer asks Allah to keep Muslims from the path of the Jews -- 'those with whom Allah is angry' – and the path of the Christians – 'those who have lost their way.' That these

## Who is a Muslim?

A Muslim is one who is obedient to the commands of Allah and examples of Muhammad.

allusions refer to Jews and Christians is evidenced by the same language in Surah 2:61 and Surah 4:44.

**6. Muslims say they love Jesus, but the Quran mentions Jesus and Mary only to deny the truths of the Bible.** Jesus is listed in the Quran as a prophet, but the central tenants of Christianity – that Jesus was the Son of God and that He died on the Cross -- are categorically denied by the Quran in Surahs 4:157, 4:171, and 19:36. Jesus is referred to as the "son of Mary" twenty-three times. In chapter 4 of the first epistle of St. John (the apostle of Jesus,) he writes that anyone who denies that Jesus is God's Son is a false prophet.

**7. Muslims consider Judaism and Christianity as "remnant cults" which are no longer valid** -- Islamic Sharia Law states, "Previously revealed religions were valid in their own eras, as is attested to by many verses of the Holy Koran, but they were abrogated by the universal message of Islam. . . . [I]t is unbelief (*kufir*) to hold that the remnant cults now bearing the names of formerly valid religions, such as 'Christianity' or 'Judaism,' are acceptable to Allah Most High after he has sent the final Messenger to the entire world." (*Reliance of the Traveler*, Para. w4.1)

**8. Sequence is the Key to understanding the Quran.** The Quran is not in chronological order and much of the Quran is contradictory. In general the more violent surahs revealed in Medina supersede the moderate surahs revealed in Mecca when Muhammad had only a hand-full of
